

The Program

International students are eligible for the program. The program is designed to provide students with the opportunity to gain practical experience in their field of study. Students who complete the program will receive a diploma from Okanagan College.

The program is designed to provide students with the opportunity to gain practical experience in their field of study. Students who complete the program will receive a diploma from Okanagan College.

National Accreditation: The program is accredited by the Association of Colleges and Institutes of Applied Arts and Technology (ACIAT). Graduates are eligible for registration as Science Technologist Trainee (ASCT Trainee) after two years of related work experience under the supervision of an accredited ASCT professional.

Science Technologist Trainee (ASCT Trainee) after two years of related work experience under the supervision of an accredited ASCT professional.

What are the Benefits to Employers?

- Access to a pool of highly motivated and skilled students.
- Ability to train students in their own work environment.
- Opportunity to hire graduates who have already gained practical experience.
- Cost-effective training solution.
